

MAKE YOUR OWN DIY PUPPETS!

Here's an awesome opportunity to bring the characters and scenes in your stories to life!
All you need are: Popsicle sticks (provided), colored pencils/pens/markers, cardstock or thick paper, and scissors

1. Creating a character

Think of a fun character for your puppet like a brave knight or a funny dragon - anything you want!

2. Drawing it out

Draw out your character on a piece of cardstock or paper

3. Cut it out

After drawing your character, **carefully** cut it out (ask an adult if you need help!)

4. Attach to the stick

Flip your paper cutout over and glue a popsicle stick on the back (the top of the popsicle stick should be attached to the paper)

5. Put on a show!

Act out a story with your puppet - use your imagination! It helps to have more than one puppet, so find a friend.
